*"The IMS has spotted a real need for a high quality, invitation-only event focusing on the top people in the electronic music market and has brought them together with a range of high quality speakers. I was delighted to be invited. I learned a lot and I had a great time – hard not to in Ibiza! I came away with a fist-full of business cards I'm going to be following up on. A really first rate event."*

**David Glick**, Founder, **Edge Group**

*"The first International Music Seminar was a revelation; a very rewarding and illuminating time, met a lot of old friends and picked up some valuable new contacts (and work!) along the way. Having participated in the New Music Seminar, In The City, WMC, London Calling, Great Escape etc, I can vouch that the seminar brings together the best of these events, and more."*
